MEMORANDUM FOR: Assistant for Administration, NPIC

SUBJECT: PSD Report for March 1964

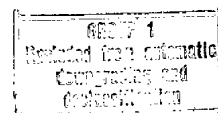

1. Attached is a report of the Production Services Division showing production and service accomplishments in the three (3) Branches for the Month of March 1964.

2. The Photographic Laboratory Branch experienced one of its most productive periods and more than doubled the output over the preceding month. This increase is due to three projects undertaken at NPIC during the reporting period namely; (1) the Southeast Asia Hamlet Program, (2) the exploitation and readout of Mission 4006 and (3) support to operations in duping selected Southeast Asia photography. There were 977 Hamlet items with a total of 14,655 copies. Mission 4006 resulted in 2,736 copies of briefing aids. 8,778 frames of photography were duplicated to provide operational support to field units.

3. In the Reproduction and Printing Branch the Phase II type and detail reports show a marked decrease in the number of reports and impressions because the backlog of MCI reporting has been virtually wiped out and backlog of detail reports is at a minimum. During this reporting period the miscellaneous support such as cover sheets, various forms, briefing manuals, etc., increased and resulted in about 100,000 more impressions than the same type in February.

4. The statistics in the Information Control Branch reflects an increase in the Registry Activity caused by the "Hamlet Program." The decrease in the Files Activities is attributed to the fact that during periods when "Immediate Reporting" is most active less support is requested of the files personnel. During this month a KH-7 and several Lucky Dragon, Lazy Daisy and Golden Tree Missions were exploited in NPIC. The number of pouches handled and the number of miles driven by

the Couriers also reflects the impact on this activity of the Hamlet Program. Of the 535 Courier runs 44 were scheduled and 491 were "special".

5. It is interesting to note that the activities in PSD in March were well above average and that more effort was placed on projects of a national interest.
